

C0 Collision Hall

- I. "A" and "B" reset Interlock box #1.
- II. "A" resets Interlock box #2.
- III. "B" sweeps the area going to the stairwell.
- IV. "A" sweeps the area while on the way to check the ventilation duct alcove.
- V. "A" and "B" meet, reset Interlock box #3, and they control access out of C0 back into B-Sector, to continue with the Tevatron search and secure.
